

WOODRUFF UNDERESTIMATES
THE SPRING THAW...

CLEVER BEARS LIVE
LONG ENOUGH TO
REPRODUCE.

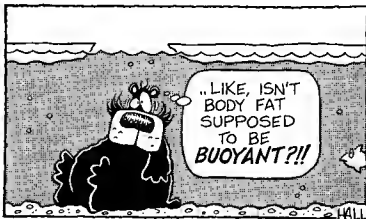

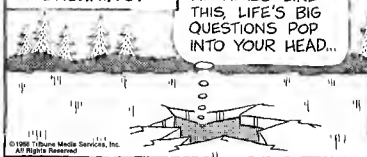

FOOLISH BEARS FALL
THROUGH THE ICE
AND DROWN.

WOW, I'M WATCHING
NATURAL SELECTION
AT WORK.

WOODRUFF FACES
THE POSSIBILITY
OF DROWNING.

RAFKIN SPOTS WOODRUFF
FLOUNDERING UNDER
THE ICE.

I'LL PROBABLY HAVE TO
FEND OFF SAINTHOOD.
